Frameworks & Libraries

- Next.js
- HTML
- React.js
- CSS
- Angular
- Tailwindcss
- Node.js
- Redux
- Express.js
- MySQL
- Flutter
- Django

About Me

I am passionate about using my software engineering skills to create innovative and interactive software. With hands-on experience in mobile, desktop, and web application development, and backed by 1 year of professional experience along with 3 years of practice in full stack web development, I have worked with various frameworks including Next.js, Flutter, Express, Electron.js, and Django. I am seeking opportunities to apply my passion for developing software toward larger purposes and am eager to learn from the industry to further enhance my skills.

Experience

FRONT-END DEVELOPER

Microdeft – Present (1 + Year)

- Built and maintained interactive, SEO-friendly eCommerce, blog, and chat-based websites using Next.js.
- Collaborated with designers and backend developers to create responsive, user-focused interfaces.
- Focused on technical SEO, optimized performance, and ensured cross-browser compatibility.
- Developed cross-platform desktop applications using Electron.js to deliver seamless offline and online functionality.

Thesis Project

An Automobile Service Providing Mobile Application onsite.

“Mechanix” a roadside assistant app as mechanic service provider on live location developed using flutter and google map api.

Tool Expertise

- Git
- MongoDB
- Cypress
- Postman
- Figma
- Linux
