## SUMMARY

I am a dedicated software engineer with a strong passion for building innovative and interactive software solutions. I have hands-on experience in mobile, desktop, and web application development, supported by years of professional experience in full-stack web development. Throughout my journey, I have worked with a diverse range of modern frameworks and technologies, including Next.js, Flutter, Express, Electron.js, and Django. I am seeking opportunities to contribute to impactful projects while continuing to grow my technical expertise.

## EDUCATION

### SECONDARY SCHOOL                                                                 2007 - 2017

Ideal School and Collage, Dhaka  │  Result: GPA -5.00 (Science)

### HIGHER SCHOOL                                                                      2018 - 2019

BAF Shaheen Collage, Dhaka  │  Result: GPA -5.00 (Science)

### BACHELOR'S IN COMPUTER SCIENCE ENGINEERING                       2020 - 2024

United International University  │  CGPA-3.38  (Software Engineer Major)

## WORK EXPERIENCE

**Microdeft – Junior Frontend Developer  (1+ year)**          September, 2024 - December, 2025

- Built and maintained interactive, SEO-friendly eCommerce, blog, and chat-based websites using Next.js.
- Collaborated with designers and backend developers to create responsive, user-focused interfaces.
- Focused on technical SEO, optimized performance, and ensured cross-browser compatibility.
- Developed cross-platform desktop applications using Electron.js to deliver seamless offline and online functionality.

**Bird's Nest Cloud – Full Stack Developer   (6-Month Contract)**          April, 2024 - September, 2024

- Developed and maintained a responsive, SEO-optimized eCommerce web application with secure user authentication using Next.js and Django.
- Implemented an admin panel to manage products, users, and orders efficiently.
- Ensured cross-device compatibility and optimized performance for an improved user experience.

## TECHNICAL SKILLS

- <u>Proficiency in programing languages</u> -   JavaScript, TypeScript, Python, Java, C and Dart.
- <u>Proficiency in Frameworks and libraries</u>  -   Next.js, React.js, Node.js, Express.js, Electron.js, Django, Angular, Flutter, HTML, CSS, Redux, MongoDB and MySQL.

## ADDITIONAL INFORMATION

- Skilled in UI/UX design and Figma for creating user-focused interfaces.
- Experienced with Git and GitHub for version control and collaboration.
- Basic knowledge of CI/CD pipelines and Docker for deployment.
- Familiar with cloud services and integrating RESTful APIs and third-party tools.
- Leveraged AI-powered development tools like GitHub Copilot to accelerate coding.
